

Aakarshit Rathore

Cloud & DevOps Consultant · Microsoft AI Engineer

Email contact@aarshitrathore.com Location Jammu, J&K, India LinkedIn linkedin.com/in/aakarshit-rathore
MS Learn learn.microsoft.com/users/aakarshitrathore-8005

I engineer resilient cloud systems that let software scale without giving up security or reliability. I work at the intersection of cloud architecture, DevSecOps, MLOps and AIOps — delivering Azure and Microsoft 365 projects end to end for small and mid-sized businesses, and building AI agents with Microsoft Copilot Studio.

EXPERIENCE

Microsoft AI Engineer TechPlusTalent · Jammu (on-site) - Build AI agents and copilots with Microsoft Copilot Studio and GitHub Copilot. - Run Copilot readiness and AI-risk reviews across Entra, Teams, SharePoint and M365 before rollout.	Apr 2025 – Present
Associate Consultant TechPlusTalent - Deliver Azure & Microsoft 365 projects for SMB clients: PAYG → CSP transfers, server migrations, Azure Virtual Desktop, Intune and tenant merges. - Own projects end to end — scope document through build, validation and SOP-based handover.	Dec 2024 – Present
Azure Associate Engineer — Apprenticeship TechPlusTalent	Sep – Nov 2024
DevOps Intern DevOps Insiders · Remote	Jun – Sep 2024
Data Science Intern Futureense Technologies · Bengaluru Data analysis and project management.	Jan – May 2024

SELECTED PROJECTS

Azure Virtual Desktop for a medical centre Pooled AVD, FSLogix profiles on Azure Files, conditional access; delivered via partner MSP with live training and an admin runbook.
Hybrid identity foundation Domain controllers in Azure, Entra Connect, cloud Kerberos trust, and Meraki vMX + AutoVPN linking on-prem to Azure.
Azure landing zone (South Central US) Management groups, hub-and-spoke networking, Azure Policy guardrails and RBAC — a repeatable base for workload migrations.
Vendor file exchange on SFTP SFTP on Azure Blob Storage with scoped containers, plus an OpenSSH-on-VM alternative with Azure Backup — two costed, tested options.
Single egress IP for app whitelisting Routed P2S VPN and AVD traffic through a Linux proxy in Azure to give vendor apps one static IP.

CERTIFICATIONS

AZ-104	Azure Administrator Associate
AI-102	Azure AI Engineer Associate
DP-300	Azure Database Administrator Associate
DP-600	Fabric Analytics Engineer Associate
SC-200	Security Operations Analyst Associate
AZ-900	Azure Fundamentals
AI-900	Azure AI Fundamentals

CORE SKILLS

Azure	Landing Zones	Entra ID
Hybrid Identity	Intune	Autopilot
AVD	FSLogix	Microsoft 365
Tenant Migration	Azure Policy	RBAC
Azure SQL	Copilot Studio	GitHub Copilot
Microsoft Fabric	DevSecOps	MLOps
AIOps	Meraki	Linux

EDUCATION

Jain (Deemed-to-be University) Bengaluru, India
